CENTERS IN WEST

Strikers are Greatly Encouraged By the Recent Developments.

MILWAUKEE VOTES TODAY

The Steel Workers Think They Will Induce Chicago to Join Them.

COMBINE IS STILL CONFIDENT

Pittsburg, Aug. 17.—The strike interest now centers in the west, and it is said if the Milwaukee men come out the strikers will win a big victory. The news from the west cheered the strikers throughout the districts in this vicinity as no further developments place the latter were declared. In their enthusiasm they count on favorable action at Milwaukee and carrying their hopes still further, say that they will yet win Chicago over. These successes, they declare, with apparent confidence, will make them masters of the situation and win the strike. The steel operators fear the strikers are nearly at the foot of their success and that when the old comes it can never be stopped. They do not seem to be disturbed by recent events and with a confidence equal to that of the strikers talk of the certainty of ultimate success. They assert that popular sentiment has never been behind the strikers and that the general interests which were once aroused by the contest is quickly waning. They claim that they are more than holding their own in the peninsula plants that were an affected, or have been stated since the strike began, and are perfecting plans for re-opening several plants new. They also claim that many of their men, particularly at McKeesport, Wheeling and Bellair were forced out by intimidation and will come back as soon as excitement subsides. Two hundred men employed in the National Manufacturing Works of the National Tube works at McKeesport struck yesterday.

President Shaffer talked freely about the situation. When asked if "Trusts" were not going east to do some organizing he said: "I will not talk on Mr. Pierce's trip." "The Amalgamated Association never sought to organize these men," he said. "They sent word for us to send an organizer there. We did so with the result that it is already known. We have not troubled ourselves about them since. They do not amount to a row of pins, and if they come into the association it will be voluntarily. I have received a telegram from Mr. Tighe, stating that the Joliet men are out and that he will go to Milwaukee."

MR. SIMMONS

Left at Noon for Grand Rivers to See Furnaces.

About \$10,000 to Be Spent before Repairs are Completed—Start Nov. 1st.

Mr. E. H. Simmons, of the firm of Simmons Hardware Co., of St. Louis, and wife, were in the city this morning on route to Grand Rivers to inspect the improvements made in the Grand Rivers iron furnaces. Mr. Simmons is a big stockholder in the furnace property and thinks the company will find the business very profitable.

"We have about one hundred men employed at the plant now getting everything in shape and we hope to have the furnaces in full operation by November 1."

We will employ about one hundred and twenty-five men regularly when in operation and the labor may go higher than this."

He said it would require at least \$10,000 to complete the work.

An inspection of the adjacent land has settled the fears of the stock holders as far as obtaining the ore is concerned as there is plenty to be had and with little expense offered to procure the same.

Mr. D. W. Layton, of St. Louis, an expert, accompanied Mr. Simmons.

PREACHER'S SON VERY ILL.

Mr. J. B. Puryear is in receipt of a letter from Rev. George W. Perryman, pastor of the First Baptist church here, who is now visiting in Danville, Ky., saying that his little two year old son, George, Jr., is dangerously ill of a disease similar to diphtheria but that he may recover.

A GALA EVENT.

"The Kentucky" Announces the Opening Date.

"The Burgomaster" Comprising Eighty People Will Be the Attraction—Tuesday, Sept. 24, 1901.

A conspicuous advertisement in today's Sun tells of the opening date and attraction of The Kentucky. Not only the amusement lovers but the general public must find interest in facts given. The attention, therefore, of all is called to this advertisement.

The building of The Kentucky gives to Paducah what it has long needed—a first class place of amusement. The house is not only complete in all of its appointments but one just as serviceable for the purposes for which it was constructed as any to be found in the metropolitan cities. In its construction the use of money was only thought of after the demand had been supplied. Thus \$50,000 will have been expended by the builders of The Kentucky and it is thrown open to the public.

The minds which first recognized the wants of Paducah and conceived the erection of this beautiful place of amusement are known to the Sun and later shall receive the praise due them. Today it seems best to land the hotel company for its enterprise in erecting The Kentucky, solely at its own expense and without asking any assistance from the public. The latter however have a deep interest in the building and they too have an appreciation to show and which they will undoubtedly exhibit. The opening night of the grand play house will give them an especial opportunity in this way. Though Manager and Lessee English is entering in his efforts to win favor for The Kentucky, having secured a most attractive and pleasing bill and planned, in all respects such "an opening" as is only witnessed in the leading cities, the entire profits of the opening night's entertainment go to the hotel company. The people, therefore, to perform a duty which is due the hotel company especially has only to fill The Kentucky on its opening night to overflowing, that the profits may be a sum alike flattering and substantial.

The prices of admission fixed for the initial performance at The Kentucky are not high. Theatrical history will justify the statement that they are most liberal. The usual opening prices on such occasions are twice as high as those announced for The Kentucky. One citation will do. When the new opera house in Anderson, Ind., was opened, a year or two since, \$10 was charged and the house netted the managers over \$20,000. The people had no reason to object, but they felt under obligations at the same time to the enterprising builders of the house and liberally manifested the fact. Paducahans are not expected to do so well, but they should not fail to do what is creditable and just. In a manner The Kentucky, it is true, is a private investment, but it is also a public utility and supplies a demand as such. A recognition of this fact is clearly due from the people.

Manager English has decided to begin the sales of reserved seats for The Kentucky's opening performance on September 5, at 9 o'clock a. m. The "box" will, for this one sale only be placed at the outer stand in the corridor of the Palmer. Mr. English will be in control of the "box" himself. It is expected the "line-up" on this occasion will be not only a long one but an anxious one. It will be the first time the first served and the rule then or any other time. On this point the public can rest assured.

The bookings of The Kentucky already number sixty-five of the very best companies which will be upon the road, with negotiations on foot for dates with nearly as many more during the season. There will be no better attractions to be found in any city than Manager English will offer his patrons and of this the amusement lovers can rest assured. Subsequent announcements will justify The Sun in this statement.

A question sometimes heard is, who compose the hotel company. Just that full praise may be given to whom the public is grateful the personnel of the company may be given: J. L. Friedman is president, Chas. Reed, vice president, James Utterback, secretary and treasurer, T. E. Moss attorney, who with J. W. Keller, S. B. Hughes and R. C. Utterback make up the board of directors. The city hold no more enterprising body of men, as all must agree. In time their beautiful theater building shall receive the detailed mention and some facts the public does not know will be then given.

CONCERT TOMORROW NIGHT. Dean's Band will give a concert at La Belle park tomorrow night if the weather will permit.

EXCURSION NEXT FRIDAY.

The Red Men, encouraged by the liberal patronage of their recent excursions, will give another excursion next Friday evening.

DRY TOWN.

Over in Illinois Water Sells for One Dollar a Barrel.

At Last Reports There Had Been No Rain for Months—Crops Ruined.

A dry state of affairs is reported from Goreville, in Johnson county, Ill., over on the C. and E. I. railroad. The drought seems to still be in undisputed sway, and water is retelling at one dollar a barrel. Corn is only two feet high, and dry as fodder. The town, since the railroad touched it, has grown to fair proportions and the water supply has been totally inadequate.

About the only salvation for the people has been a pond dug near the depot by the railroad to supply water for the engines. This is enclosed by an iron fence and no one is allowed to carry water away, but the dry weather has caused the tank to leak badly and the citizens of the village, driven to desperation, have dug a trench from the tank to an old well on a nearby lot and into this the water from the leaking tank is conveyed. In the morning the citizens go to this well and draw a supply of water to last them through the day. Often there is not enough water to go around and those who are so unfortunate as to be late must do without or buy. The water is not good but it is water and the people must have it.

MARRIED AT MARION.

MISS MARY HALLOWE MARRIED TO A LOUISVILLE MAN.

Miss Mary Hallowe, of North Seventh street, left the city a few days ago for Marion, Ill., on a visit. This morning relatives received a letter announcing that she was married there yesterday to Mr. J. V. Colley, of Louisville, a traveling man quite well known here.

The bride has been living with her mother, Mrs. Amanda Hallowe, and has resided here all her life. She met Mr. Colley at Marion by appointment and the marriage was consummated. They will reside in Louisville, but are now in St. Louis.

LABOR DAY.

MUSIO PROGRAM HAS BEEN ARRANGED FOR THE OBSERVATION.

The music program has been arranged for the Labor Day celebrations. Two bands from Central City and one from Rensler, Ky., all composed of union members, will contest for the supremacy at La Belle park on that day, and it is also probable that Dean's band will also participate, as it has been secured for the day.

The rates from Elizabethtown have been fixed at 50 cents for the round trip on the steamers City of Gloucester and from all points this side of Gloucester the round trip fare will be 35 cents.

NEW RULES

Examination of Many Officials In Progress Here Today.

WILL REQUIRE SOME TIME

One Hundred and Seventy Men Will Be Examined by September First.

THE NEWEST RAILROAD NOTES

Trainmaster Banks and Supt. H. U. Wallace are at present busy examining the conductors, engineers, firemen and brakemen of the Paducah district. After they have finished here they will go to the Evansville district to examine there. It will require the greater part of the next week to complete the examinations as there are so many employees to examine. On this district there are thirty conductors, forty brakemen, fifty engineers and fifty firemen, making a total of one hundred and seventy to be examined. There are many more on the Evansville district and all the examinations will have to be completed before September 1, the date the new rule book goes into effect.

Operator Thomas, of the train dispatcher's office, was on the sick list yesterday.

Mr. O. J. McCarty, an employee of the machine department of the Illinois Central here, mangled his finger this morning and was unable to resume his work. He will be able to report for duty Monday however.

The new carpenter shop at Fulton has been completed, and is 100x100 feet. A supply house is also being built there.

Mr. A. D. Brooks, superintendent of water supply of the I. C., Paducah district, returned to Central City to day at noon after a brief business trip here.

AMENDED PETITION.

ATTORNEYS FILED ONE TODAY IN THE CHESTERFIELD CASE.

Attorneys Greer and Reed, who yesterday filed a suit for the City National Bank against Mr. Wm. Chesterfield and the Paducah Packing Co. for \$350, and asked that the affairs of the company, better known as the "canning factory," be wound up as an insolvent company, this morning filed an amended petition, setting forth that a mistake was made, and disclaiming the allegations as to the solvency of the company, asking that judgment be rendered against Mr. Chesterfield, and his individual stock or any other interest he has in the company, to satisfy the claim.

Bids for School Improvements Held Up Until Next Monday.

One Hundred Dollars Found to be Illegally Appropriated—Taken From Another Fund.

The board of education met last night in called session to consider bids for heating the Broadway school building and putting in plumbing at two of the other buildings. The bids had not been opened, and as T. J. Foley, of Evansville, telegraphed that he desired to submit a bid, and it was not certain whether the bidders had prepared their bids separately for each job as the board desired, it was decided to defer the matter until Monday.

President Reddick stated that the \$100 appropriated at the last meeting for the library cabinet was illegal, as the charter expressly prohibited it. It was then decided to appropriate the money from the tuition fund instead of from the one which it was drawn, and in this way the law is dodged. The tuition fund is the one derived from pupils who live outside of town and pay to attend school.

COMPLETE ROSTER.

The members now here will leave tomorrow morning for Jackson, Tenn., where they will make a two weeks' stand in the park. There are four members of the company now with the La Belle Park Stock company, and all the substitutes have arrived and will go on Monday night.

GOOD INCREASE

Bank Clearings Show a Big Gain Over the Same Week Last Year.

FALL TRADE OPENING UP.

Local Wholesalers Satisfied With Present Indications for the Coming Season.

THE FACTORIES ARE ALL BUSY.

Clearings this week, \$173,040.28. Same time last year, \$110,305.

Business at the banks this week show a good improvement in clearings over the same week last year. The general banking business is very good and local bankers are satisfied with the prospects for the immediate future. The demand for money at all centers is steady and the indications are that rates will stiffen up as a result. The banks are the best indicators of the volume and strength of business and from the reports of the past few weeks general business all over the country is good, the clearances showing wonderful increases over the same period last year in a great majority of the cities.

Wholesale trade is good in most lines and fall trade is opening up very well in some districts. The rains of the week have contributed some consolation and hope to the average merchant and he is not feeling so blue over the outlook. Local wholesalers are not complaining but find things very satisfactory.

"Retail trade is dull," is the report from numerous sources. It is no

duller than at other years at this season however. Some fall goods are being shown in some lines but it is too early to expect much trading of that sort.

The manufacturers are all running full force and bookings of orders are very satisfactory.

Real estate market is good for the season and building is very active.

There were only two other cases in the police court this morning. James Fletcher, colored, charged with stealing lead that belonged to Mr. B. T. Davis, the contractor, was held in the sum of \$100.

Ira Hamilton, for using insulting language towards Ella Ward, was fined \$1 and costs.

IDLENESS SAT IN

THE WILDERNESS.

Idle and beyond was the nation, laboring and sweating, nervous, restless, transfixed under the bondage of toil.

Idle and put on her gayest garb, and a land of merry-makers came out through the gate of the great nation and wooed her. They lay at her feet, and the homes that they once knew, knew them no more.

Idle and sighed. It was not for these that she longed. She looked beyond the gate of the great nation and saw a man bending over his labor, and the homes that they once knew, knew them no more.

with herself those summer days, if time has been heavy, and if she misses her absent friends? she will look dejectedly down at her watch and see that it is not half so late as she had feared.

The truth is she has had a monopoly, her own popularity has kept her busy, and all her powers of fascination have been brought into action. Not only has she had her own special charm to entertain and be charming to, but she has had to sympathize with and cheer the lonely sweethearts of her dear friends who have been out of touch with the world.

Enough to go off to other fields seeking pleasure, and thus leave their own treasures unguarded. And coming to her for comfort they have lingered not unwillingly, for in her efforts to cheer their loneliness and shall one be so kind enough to say, to hold them—she has proved so beguiling, these moonlight nights on land and on water, in the quiet stroll on the cozy veranda, or in the shadows of the park, wherever they may have wandered, that Cupid's mischief is done, and the girl who has sought pleasure afar, may find on her return that the stay-at-home girl has reaped the richer harvest, and those whom she once counted her own, have passed out of her service and are slaves to another's whims; and the hand that holds the silken reins is that of "some one's faithful friend," who is apt to sing with an unkind emphasis:

"Stay, stay at home my heart and rest."

Home-keeping hearts are happiest, For those that wander here and there Are full of sorrow and full of care."

The Commercial-Tribune of Wednesday says: "The meeting at Baltimore will be held on October 8 and 9, and is in the interests of improving waterways. This meeting was originally supposed to be held at Louisville, Ky., and when a conference was called in this city to select a meeting place, that body of men who represented cities from Pittsburgh to New Orleans rejected the city on the Ohio falls as the proper place to hold a national gathering of rivermen, but the New Orleans delegation after leaving the city, sent word that the selection was not approved by them, and they selected Baltimore as the place. The change of meeting place angered many river men, especially several of the officers of the Ohio Valley Improvement Association, and they will not have anything to do toward helping the convention along."

Captain Henry Partee of St. Louis, pilot on the Harvester, has in his quarters on the boat a pot "possum," which was taken from a piece of driftwood on which the animal was floating down the river at a point between Helena and Greenville. The manner of the "possum's" presence in the river is considered a mystery among river men, who declare that the animal is rarely ever found near water.

An effort will be made to have the Morning Star take Louisville's delegation to the meeting of the Ohio Valley Improvement Association to be held at Paducah next October. This would mean that Cincinnati, Pittsburgh and other up-river cities would have their delegations there to enjoy the junket.

There is said to be another rise in the price of coal, and about 70,000, 000 people in this country would like to know the reason why. The drought has certainly not injured the coal crop. It looks very much like a case of the coal trust squeezing the people for a few more millions to buy up and monopolize some other necessary of life.
